

4 Courses

Python Programming Essentials

Python Data Representations

Python Data Analysis

Python Data Visualization

06/09/2020

Azmine Toushik Wasi

has successfully completed the online, non-credit Specialization

Introduction to Scripting in Python

This specialization is intended for beginners who intend to master essential programming skills. Through four courses, you will cover key Python programming concepts which will prepare you to use Python to perform common scripting tasks. This will provide a solid foundation for future careers in data science, software engineering, or other careers involving programming.

Joe Warren
Professor
Dept. of Computer
Science
Rice University

Scott Rixner
Professor
Dept. of Computer
Science
Rice University

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
